

KEAN  
UNIVERSITY

December 19, 2007

Dear Members of the Review Committee,

Kean is excited to participate as a host site for the SC08 Education Program summer workshop series. This week-long intensive workshop on parallel computing with special sessions on HPC applications in Physics Education for faculty from Kean (Northern New Jersey) and the rest of the United States will help to educate our faculty on the use of high performance computing and will help to build connections with faculty from other institutions.

As the Acting Dean of the College of Natural and Applied Health Sciences, I am pledging my full support for the proposed workshop series. The College of Natural and Applied Health Sciences will support the participation of George Chang at the level of one (1) credit hour of overload/summer pay for his assistance in this workshop as a coordinator of supercomputing resources and as an instructor for the workshop.

If you have any questions, please feel free to contact me at any time.

Sincerely,

*Xiaobo Yu, Ph.D*  
*Acting Dean*  
*College of Natural, Applied & Health Sciences*
